

QualityPath® Designated Hospital-and-Doctor Pairings

Knee Replacement and Total Hip Replacement

Beloit Health System
1969 W. Hart Rd.
Beloit, WI 53511

Dr. Leighton Johnson

Dr. Leighton Johnson led the building and launching of Beloit Health System's Advanced Joint Care Center. Known for his interest in surgical techniques, Dr. Johnson champions the use of innovative procedures in orthopedic treatment. Dr. Johnson's areas of interest include hip and knee replacement and general orthopedic procedures.

Dr. Ajmal Matloob

Dr. Ajmal Matloob works closely with his patients and believes that mutual respect, sincerity and a friendly attitude are the most important factors in a successful doctor-patient relationship. A program leader in orthopedic surgery at Beloit Health System since 1989, Dr. Matloob's primary focus is on the patient. In his years of practice, he has helped many patients return to their lives and normal activity without pain. Dr. Matloob's areas of interest include hip and knee replacement, arthroscopic surgery, orthopedic trauma surgery, carpal tunnel and general orthopedic procedures.

GUNDERSEN HEALTH SYSTEM®

Gundersen Health System

1900 South Ave
La Crosse, WI 54601

Dr. Edward (Ted) Riley

Board certified by the American Board of Orthopaedic Surgery, Dr. Riley specializes in knee, hip and shoulder replacement. After graduating from Mayo Medical School, Dr. Riley served in the United States Air Force four years. Returning home he completed his Orthopaedic residency at The University of California in Los Angeles. He has been at Gundersen Health System 19 years and has been the chairman of the Orthopaedic department the past seven years. His entire team is focused on providing excellent, compassionate care for all his patients.

Dr. Mark Topolski

Dr. Mark Topolski specializes in adult reconstructive surgery, including total knee and total hip replacements. Dr. Topolski combines the latest techniques and technology with compassion for his patients. If you have a sprain, strain or tear, or if you're dealing with chronic pain and want to get back to the activities you enjoy, visit gundersenhealth.org/physicians/Mark-Topolski.

Dr. Scott R. Baussuener

"When looking for a place to practice, I was looking for a facility with an excellent established orthopedic service with surgical volumes adequate to allow me to focus my practice primarily on fracture care," Scott Bassuener, MD, says. A native of Port Edwards, Wis., and a graduate of the University of Wisconsin School of Medicine and Public Health, Dr. Bassuener has dual fellowship training in orthopedic trauma and total joint replacement from Hennepin County Medical Center in Minneapolis. He specializes in fracture care, hip and knee replacement, chronic musculoskeletal infections, and post-traumatic deformity management. Dr. Bassuener is a board certified orthopedic surgeon and has worked for Gundersen for four years.

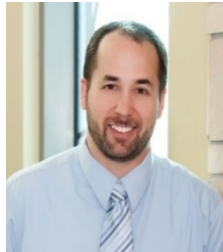

Monroe Clinic
515 22nd Ave
Monroe, WI 53566

Dr. Lance Sathoff

Dr. Lance Sathoff has been an orthopedic surgeon on Monroe Clinic's team for 16 years. In that time, he has proven success in treating joint replacement patients and helped launch Monroe Clinic's Joint Replacement Center of Excellence. Known for his interest in new technologies and surgical advancements, Dr. Sathoff does direct anterior approach hip replacement, minimally invasive knee replacement, and shoulder resurfacing as well as knee arthroscopy, rotator cuff surgery, ACL surgery and fracture fixation.

Dr. Jonathan Swindle

Dr. Jonathan Swindle, an experienced orthopedic surgeon for over seven years, has been an orthopedic surgeon on the Monroe Clinic Joint Replacement Center for Excellence team for over four years. Instrumental in bringing anterior approach hip replacement to the portfolio of orthopedic options at Monroe Clinic, Dr. Swindle also has proven success in knee and shoulder replacement as well foot and ankle repair, pediatric orthopedics and orthopedic trauma surgery.

Sauk Prairie Hospital
260 26th St
Prairie Du Sac, WI 53578

Dr. Matthew M. Hebert

As an orthopedic surgeon, Dr. Matthew Hebert sees his role primarily as an educator, teaching patients about their medical problem and potential solutions. He takes time to listen, and exhausts non-operative treatment options before recommending surgery.

Dr. Hebert's areas of interest include hip resurfacing; anterior hip replacement; hip replacement; knee replacement; partial knee replacement; shoulder replacement; shoulder and knee arthroscopies; reconstructive surgery; foot and ankle surgery; sports medicine; and hand surgery.

Dr. Diana L. Kruse

Dr. Diana Kruse is an orthopedic surgeon who treats people every day who suffer from pain and limited function; helping them feel better is the most rewarding part of her job.

Dr. Kruse's areas of interest include hand, shoulder and upper extremity surgery; back surgery; arthroscopic surgery; sports medicine; total joint arthroplasty; lower extremity surgery including foot and ankle; acute injury care including fractures; and osteoporosis management.

Dr. Michael D.C. Lamson

Dr. Michael Lamson loves to help people and finds the most rewarding part of his practice to be helping his patients get back to doing the things they want to do, pain free.

Dr. Lamson's areas of interest include anterior hip replacement; hip resurfacing; knee replacement; partial knee replacement; shoulder and knee arthroscopies; reconstructive surgery; foot and ankle surgery; sports medicine; hand surgery; rotator cuff repair; shoulder replacement; and reverse shoulder arthroplasty.

Dr. David M. Marcu

Dr. David Marcu works closely with his patients to ensure they understand all their treatment options. When it comes to joint replacement, he helps patients know what to expect and how to prepare if they choose this elective option. Dr. Marcu's areas of interest include sports medicine; arthroscopic surgery; knee replacement; hip replacement; cartilage preservation; ACL and meniscus surgery; arthroscopic rotator cuff repair; arthroscopic shoulder stabilization; shoulder replacement and resurfacing; reverse shoulder replacement; hand surgery; and fracture care.

Dr. Arnold N. Rosenthal

For Dr. Arnold Rosenthal, helping people get better and improving their quality of life is what being an orthopedic surgeon is all about. He believes the friendliness and caring at Sauk Prairie Healthcare is what sets it apart from other hospitals.

Dr. Rosenthal's areas of interest include total hip replacement; total hip resurfacing; total knee replacement; partial knee replacement; shoulder and knee arthroscopies; total shoulder replacement; sports medicine; and hand surgery.

Southwest
—HEALTH—

Southwest Health Care

1400 Eastside Rd.
Platteville, Wis.

Dr. Joshua Lindsey

Lindsey brings his patients amazing skills, experience, and expertise. He earned his medical degree from the University of Wisconsin before completing a highly competitive orthopedic residency program in Seattle. To hone his remarkable skills, he then also completed prestigious fellowship training in joint replacement (Harvard in Boston, MA) and in shoulder and sports medicine (University of Rochester, NY). Through this training, Dr. Lindsey gained a wealth of specialized orthopedic experience that would otherwise have taken decades to acquire, making him an exceptional orthopedic specialist early in his career.

Dr. Lindsey will be participating in QualityPath effective Jan. 1, 2018.
